OBJECTIVES

Looking to join a dynamic, people-oriented organization that can utilize my design and project management skills to their fullest potential while at the same time exceeding enterprise goals.

EXPERIENCE

Lead Designer | Corpedia, Inc.

2005 – present

- **Project Management | Team Leadership | New Hire Training**
Led a team of five to design, create and edit quality online training courseware. Participated in the hiring and training of each team member.
- **Product Development & Design**
Created online corporate training courses from start to finish, including multiple rounds of quality control followed by several rounds of client edits.
- **Client Communication**
Represented the company's design department during client meetings and served as the voice of design for the client throughout the design and production process.
